Dear Mayor,
I would like to sincerely thank you for taking the stance that you did regarding the BDS sponsored resolution through your city council.
BDS is made up of today's Nazi's, Jew haters who single out Israel and ignore the horrors inflicted on innocent civilians by the governments of the states that they support.
I offer some thoughts to you to support your position:
BDS and Arab nations have always used the :"you don't have to be an anti-Semite to criticize Israel" mantra to deflect the fact that they are indeed anti-Semites. When Hitler met with Palestine's grand Mufti in the 1930's, he receive unfettered support by promising that he would wipe out the Middle Eastern Jews as soon as he finished with Europe. Hmmm, Israel did not exist for another 15 years.
From 1948-1967, Jordan and Egypt ruled Judea and Samaria and treated the Palestinians like garbage, using them only to fuel hated of Israel and Jews.
And, Israel has had an unbroken peace with Egypt for 40 years and Jordan for 30, proving that they do not attack people who are not trying to kill them.
Thank you again for making certain that Cambridge is not a front-runner in today's unfortunate surge in anti-Semitism everywhere; I truly fear that the seeds of the next Holocaust have been planted.
